Have Your Bonds Proved Dependable?

The past twelve months have subjected all forms of investments to a severe test. The clients of conservative investment houses whose recommendations were based upon thorough investigation have been particularly fortunate. Their funds have not been

dissipated by bankruptcies, defaults and receiverships. Are you interested in Dependable Bonds?

'CHANGE TO CLOSE FOR G. A. R. Local Brokers Will Suspend for Veterans' Review.

Pursuing a policy of retrenchment such as is being followed by many transporta-tion companies throughout the country, the directors of the Norfolk and Washington Steamboat Company have placed their stock on a 10 per cent basis. A quarterry dividend of 21-2 per cent instead of 3 per cent, the usual amount, has just been declared. It is explained that the 3 per cent has been earned, but that it has been found advisable to apply the remaining 1.9 maining 1-2 per cent to surplus instead f to dividends.

No session of the local stock exchange will be held next Wednesday, the day of the G. A. R. parade. This was decided yesterday by the executive committee of e exchange. Lanston Monetype was the most active

COTTON MARKETS. New York, Sept. 31 - New high records wer

New York, Sept. 24.—New high records were made in the cotton market today, January crossing the pedicted 12-cent level, but profit taking on a big scale carried the list down in the last hour and the tone was more unsettled. The close was barely steady at a net advance of 2 to 13 points. Trade was active. The market opened six points lower to four points higher. The greatest decline was in fectaler, which suffered from fluidation.

Wall Street bought the near mouths and sold the late positions. Southern houses were on the buying side. After the call a rapid upward movement side. After the call a rapid to ing side. After the call a rapid upward movement act in. Livery od straidle selling and heavy leval realizing held the adsance in check for a time, but after the close of the English market straidle busing was shut out and the market here developed purious strength on general busing. Stop orders were uncovered on the advance. The upward movement was then storged again by extensive realizing and finetuations in the moon hour were irregular, but bullish sentiment was much in evidence owing to the general disposition to reduce crup estimates as the result of unfavorable weather in the Suthwest and prospects for further rains. There was a good dead of uneasiness as to the probable course of a trouted storm reported in the Carribean Sea, in the basis of 12c for January, however, profit-taking sales were large, but the offerings were abouted well. It was reported on the floor that a taking sales were large, but the offerings were absurbed well. It was reputed on the flow that a
large German house had arranged to finance 20,00
beles, of actual cotton until after the war. The
sust article here advanced twenty points to 11,5
with sales of 20 bales. There was a good demand
for the spot article at Liverpool on the basis of
6,204 for middling utlands. Futures there closed
flow, not unchanged to five points higher.
Exports for the day amounted to 1,899 bales compared with eighty bales, a year ago. Today's total

CHICAGO GRAIN MARKET.

Great Britain continues to purchase goodly quanti-ties of wheat from Canada while the cash markets in the United States are almost at a standatill it indicates that the wheat in the Dominion is being indicates that the wheat in the Dominion is being sold at a low price and that the quality of the grain is excellent. Purchases of Canadian wheat by the allies amount to about \$20,000 busicle daily, while there are no sales in the United States, save occasional small lots to millers.

The Modern Miller will say tomorrow that there has been some threshing from the stack in the Southwest, which means an increase in offerings, but that only 40 per cent of the wheat has been threshed in Kanase, Oklahoma, and Nebraska. That publication ventures the opinion that there.

That publication ventures the opinion that there has been only 25,000,000 bushels of wheat threshed out of a roop of nearly 500,000,000 bushels. The mastiled weather in the Southwest has been delaying planting of winter wheat, with seeding 25 per cent below icet year, but farmers are expecting to sow late wheat.

Nevertheless Western bankers and business men, as well as packers, supposed in some quarters to be opposed to the new loan, are reported to be in favor of

it. Three forces loom large in the week's expansion—cold weather, higher prices for cotton and foreign orders for munitions of war. The first-named factor, coupled with that of profitable figures for the South's chief staple, has brought out larger orders for cotton goods, blankets. flannels, underwear and heavy fall goods, while export trade keeps steel mills and machine shops rushed to ca-
